OBJECTIVE

Passionate and detail-oriented React and React Native developer with 2+ years of experience building dynamic and user-friendly web and mobile applications. Proficient in creating responsive, high-performance solutions, with a strong focus on clean code and seamless user experience.

EDUCATION

Master of Business Administration, Gitam University, Visakhapatnam.   2017 - 2019

SKILLS

Technical Skills
- **Frontend Technologies**: React.js, React Native, Redux, Context API
- **JavaScript/TypeScript**: ES6+, TypeScript
- **UI Libraries**: Material-UI (MUI), Fluent UI, Tailwind CSS, Bootstrap, figma
- **Mobile Development**: React Native, Expo, Native Modules
- **Backend Technologies**: Node, Express j.s
- **Database**: Mongo Db, MySQL.

EXPERIENCE

React Developer   oct 2022 - Present
ProcessQ Technologies   *Hyderabad, India*

- **Improved application performance** by optimizing React components, utilizing **hooks**, and implementing **lazy loading** for assets.
- **Contributed to the enhancement** of CI/CD pipelines, reducing deployment time through **Azure Devop** integration.
- **Developed and maintained** a scalable, responsive web platform, enhancing user satisfaction by employing **React.js**, **TypeScript**, and **Material-UI** for seamless UI/UX.
- **Collaborated with backend teams** to integrate APIs, resulting in faster data synchronization and improved overall app reliability using **Axios** and **Fetch.**

PROJECTS

Asset Management
Built a comprehensive system for managing physical and software-related assets within an organization's computer infrastructure, including hardware and software licenses.

- Developed responsive and interactive web applications using **HTML**, **CSS**, **JavaScript and React**.
- Collaborated with a team of developers on various web projects, integrating **Node.js** and **Express** to build **RESTful APIs**.
- Designed and implemented database schemas with **MySQL** and optimized page load times for enhanced user experience.
- Managed code versioning and deployments using **Azure DevOps** and followed **Agile methodologies** to improve project management.
- Utilized **React.js** and **Bootstrap** to design accessible web pages, improving both user interface and functionality.

Neo Spark Buildings

Developed a smart mobile application for individuals and society administrators to manage events, subscriptions, and billing, using React Native.

- Created the **Neo Spark Building** app, enabling users to manage events and track status efficiently.
- Developed features for event handling, subscription management, and billing, ensuring smooth functionality for both individual users and administrators.
- Employed **React Native** for cross-platform mobile app development and utilized **Azure DevOps** for continuous integration and version control.
- Collaborated with designers and product managers, actively improving app performance and usability through team feedback and retrospectives.
- Delivered comprehensive documentation, including user guides and release notes, to ensure seamless handoff and maintenance
